Westmead winners at APM

Congratulations to all of our Westmead APM Quality Awards winners on their outstanding achievement. The Redevelopment team wish to recognise and celebrate the success of our Westmead staff and their commitment to continuous innovation and workplace integration within new models of care.

Short Stay redevelopment commences

Redevelopment of the short stay area at Westmead Hospital will begin next week, with plans to create more capacity, enhance amenity for patients and improve working environments for staff.

The work will create space for two new beds and two new chairs in Emergency Short Stay Unit (ESSU) and three new beds for the Healthcare for Healthcare for Older People Earlier (HOPE) unit.

The redevelopment has been planned in consultation with staff and consumers to ensure it meets the needs of patients, visitors, carers and staff.

The units will expand into unused internal space and redevelop some existing short stay space.

Workers will begin installing safety hoardings around the work site next week so if you’re using one of the corridors around Emergency department on level 2, please follow any signs and instructions from site staff.

Contractors will also be establishing a work compound on site and a lunch and rest area in part of the staff cafeteria.

Work has been carefully scheduled to minimise the impact of construction, but there may be some noise from time to time.

If you have any concerns during redevelopment, please contact the project team.

Or for general information, visit the website. Printed calling cards are also available to hand out to patients and carers - contact the project team if you need copies for your area.

Want more information about the concept design?

Would you and your colleagues like to get a presentation from the project team about the planning process and the concept design launch?

Call the Project Office on 1800 990 296 to book in a time. We’d love to come and present to you and answer your questions.

You can also visit the website www.westmeadproject.health.nsw.gov.au to find out more or see the fly-through.

Hoardings will be installed around the level 2 short stay redevelopment area
On site this week

This week we have works happening in several areas so please stay on marked paths, follow signs and directions from site staff and drive carefully.

Works continue to prepare for site demolition.
