Merry Christmas from the Westmead Redevelopment Project

It’s been a big year for the project!

As we rapidly approach 2016 it’s important we take the time to reflect on all of the exciting achievements of the Westmead Redevelopment Project.

Over the course of 2015 we’ve seen the demolition of buildings on ADHC land to make way for car parking in the new year, the beginning of Short Stay Redevelopment and Masters of Nursing facility due for completion in early 2016, finalisation of concept design for Stage 1 which includes the new Acute Services Building located between The Children’s Hospital at Westmead and Westmead Hospital and significant refurbishment to the existing hospital.

We want to thank all of our amazing staff and stakeholders for their effort this year as we look toward another year of big changes and major works around the precinct.

To see more photos from the year and other project news visit:

Executive Director of Nursing & MidwiferyJoanne Edwards (far right) with Nursing staff in training in September.

(Left to right): Debbie Sharpe, Jude Constable, Sue Henderson and Karen Grieveson during the Executive Suite 2 fit-out in March.

ESSU nurses Marion and Giulia and HOPE nurse Miao before the Short Stay Redevelopment in September.
An important part of the Redevelopment is managing essential services before we begin to build new spaces.

Throughout 2015 and beyond the Westmead Redevelopment is delivering critical upgrades across water, power, gas and car parking as enabling works for the Redevelopment and the precinct.

The design philosophy is to start from the ground up and make sure we’re developing a world-class healthcare facility.
Important information on works

As the project winds down for the Christmas break, there is some important site information to keep in mind:

- Around the campus, the last day of construction work is Wednesday 23rd December and works will recommence on Monday 4th January 2016.
- Early in the new year, works start on the oval but by late January there will be a number of work fronts including road works in front of Redbank House. Details will be provided of alternative pedestrian and traffic routes to accommodate this work.
- There is no scheduled works over the Christmas breaks inside the dates mentioned above. Sites will be secured and emergency contact details clearly posted at entry points.
- As always, report any concerns or questions you have to the Project Office – 1800 990 296

On site this week

- Short stay redevelopment works continue into 2016
- Geotechnical investigations around the campus continuing throughout December
- Access to Oval is now closed until the new car park is opened in 2016
- Tree removal for helicopter flight path and car park preparation throughout December and January
- Investigations for new helipad
- Masters of Nursing works continue
- Demolition for the new car park
- Redevelopment works, but no disruption
