Multiple Projects Across the Precinct

In the space of less than a year it’s hard to believe how much the precinct has already changed! Our site activity map (next page) is getting busier and busier.

There is a lot happening and the project team ask that staff keep an eye out for all the updates regarding changes occurring, please be patient with the many disruptions that will come from this major redevelopment.

Like many redevelopments, we have established designated construction zones to keep contractor site sheds, vehicles and people away from staff car parking.

It’s time to get excited about what the Redevelopment means for our workplaces, our staff, our patients and our community.

We are fortunate at Westmead that we have available land and can ensure there is no net loss in car parking during the life of the Redevelopment. Many hospital redevelopments don’t have this luxury.

We are able to ensure that staff parking spaces are kept purely for staff and not taken up by redevelopment contractor vehicles during the project.

To ensure all parking spaces remain free for staff and patients, all redevelopment contractors arriving on site will be parking within their designated construction zones. Contractor site offices have also been erected in low traffic areas of the precinct to maximise flow-through for precinct commuters.

There are lots of changes happening, but we’re working hard to minimise disruptions for everyone.

We thank you for your patience.
Important information on our works

- Please be patient, there will be disruption on the campus over the next five years.
- Check signs around your usual parking area for upcoming changes as the project progresses.
- Follow instructions from site staff.
- Walk only on marked paths.
- Report any concerns or questions you have to the Project Office – 1800 990 296
