Multi-Storey Car Park opens Thursday, 7 December 2017

The new multi-storey car park Darcy Road entrance.

The top floor of the new multi-storey car park.

Transition between levels in the new multi-storey car park.

Ramp to the top level of the multi-storey car park.
Reminder: Parking changes for staff

- The new multi-storey car park will open on Thursday, 7 December, 2017.
- There will be **no access** to the oval car park for Westmead Hospital staff from the evening of Wednesday, 6 December, 2017.
- The Mons Road temporary car park will **close** for staff on the evening of Friday, 8 December, 2017.
- Following the opening of the multi-storey car park, there will no longer be valet-assisted parking available in the car parks accessed via Dragonfly Drive.
- The current late starter spaces in car parks will be relocated to the multi-storey car park.
- We thank staff for their patience during the construction of the multi-storey car park and ongoing works to improve car parking at Westmead.
- More information about these changes is available on the WSLHD staff intranet.
- Secure Parking is managing the multi-storey car park. For any car parking enquiries, please contact Secure on (02) 8890 3793.
The project team were out once again, consulting with patients, visitors, staff and carers last week about the opening of the new multi-storey car park. We’re always keen to hear feedback and suggestions, so be sure to keep an eye out for the next time we hold a pop-up.

Remember, if you have any questions, you can contact the redevelopment team on 1800 990 296 or email us at: WSLHD-WestmeadProject@health.nsw.gov.au

Westmead Redevelopment Pop-Up

The project team were out once again, consulting with patients, visitors, staff and carers last week about the opening of the new multi-storey car park.

We’re always keen to hear feedback and suggestions, so be sure to keep an eye out for the next time we hold a pop-up.

Car Parking Staff Forum

Where: Westmead Education and Conference Centre (WECC) level 2, lecture theatre 1.
When: Wednesday, 6 December, 1pm—2pm.
Staff BBQ: Celebrate the opening of the multi-storey car park!

After 16 months of construction, the multi-storey car park will open on Thursday, 7 December, 2017.

Come check out the car park before it officially opens and help us mark this moment in Westmead’s history. We want to take an aerial photo on the roof of the car park in the shape of giant “W” for Westmead, and we need your help!

Date: Tuesday, 5 December, 2017
Time: 12pm. The aerial photo will be taken at 12:30pm – we hope to see you under the drone!
Location: Multi-storey car park (Institute Road entrance)

Join us for a FREE BBQ, music, a polaroid photo booth and lucky door prizes!

RSVP: WSLHD-WestmeadProject@health.nsw.gov.au by Monday, 4 December.
The refurbishment of level 2 of the Westmead Education and Conference Centre (WECC) is now complete.

The upgrade started in early October as a joint initiative between the University of Sydney and the Western Sydney Local Health District, as part of the Westmead Redevelopment refurbishment program. Upgrades included a new exposed ceiling, new carpeting, lighting and painting.

The refurbishment follows the recently completed refurbishment of WECC level 1. Work is also underway to refurbish Westmead Hospital Library, in partnership with the University of Sydney.

The transformation of education, training and research facilities at Westmead responds to our growing multidisciplinary environment, and aligns with our vision of a being a global health precinct. If you have any questions, contact the redevelopment team on 1800 990 296 or email us at: WSLHD-WestmeadProject@health.nsw.gov.au

Kids Research’s Clinical Research Centre takes shape

The Clinical Research Centre, currently under construction at Kids Research Institute (KRI) at The Children’s Hospital at Westmead, is making real progress, with all demolition works now completed and walls and flooring being installed.

On track for a January 2018 completion date, the centre will provide a purpose-designed paediatric clinical trials and research facility—the first of its kind in NSW—and equal to facilities at leading paediatric hospitals internationally. It is anticipated that more than 1000 patients will visit the centre annually when it opens in early-2018. The trials conducted there will vary. Some may only involve a few children with extremely rare childhood diseases while others, like food allergy trials or trials for vaccine preventable diseases, may involve several hundred children. These trials provide our patients with a chance of improving their health and hopefully finding a cure for their condition.

The Clinical Research Centre is part of Stage 2 of the KRI project, which also includes the delivery of additional flexible work spaces for Kids Research staff.
Westmead Hospital refurbishment update

Inpatient unit (IPU) B6 refurbishment recent and current work includes:

- Installing new drainage lines for patient ensuites and clinical rooms and completed core hole drilling - the reason for the temporary relocation of B5 wards
- Ongoing demolition and site preparation

Ear, nose and throat (ENT) and audiology (E2) refurbishment recent and current work includes:

- Wall installation and plastering
- Ceiling wiring and fitting ceiling panels
- Installation of flooring and new fire exit doors
- Installation of nurse call monitor brackets
- Construction of the kitchenette

Thank you for your ongoing patience while we update more than 30 per cent of clinical areas in Westmead Hospital. Read more about refurbishments at www.westmeadproject.health.nsw.gov.au/projects/refurbishments
Western Sydney Local Health District spends more than $1 million each year on waste. We need your help to reduce our carbon footprint. Make yourself familiar with Westmead’s recycling processes, which will be carried into the new hospital building.

Westmead Hospital general services manager Raynelle Howat said: “step number one to being a Westmead waste warrior is being aware of what goes in what bin. Waste types can be confusing for staff, particularly with a large range of plastics and clinical waste in wards. If you don’t know, please ask your manager or give me or my team a call. A quick chat will mean you’ll know for next time and you can help colleagues, patients and visitors.”

“One easy way to help my team is to unfold all cardboard boxes and packaging before stacking it neatly in paper and cardboard, or co-mingled recycling bins. The more waste we get in each bin helps the crushing, transporting and recycling process. All of these things can help us bring our costs down and save time.

“We can’t reduce Westmead’s waste without the help of our staff, patients, carers, visitors, students and researchers - everyone can make an impact.”

Raynelle said staff could contact Mitch Clancy (Mitchell.Clancy@health.nsw.gov.au) if they were looking for pre-loved office equipment or furniture rather than ordering new items or to find out disposal or recycling options.

The general services team has been involved in the Lean 6S methodology, which is transforming storerooms across Westmead. Read more in Project Update 121. Staff from Westmead Hospital and The Children’s Hospital at Westmead have been on site tours to Baxter Healthcare to learn about Lean 65 before implementing it in their storerooms.

The below waste stream guide is posted next to most bins throughout wards and non-clinical areas across Westmead Hospital. If you can’t see this guide, please contact your manager so they can arrange copies from Raynelle.
Precinct Works

- The Mons Road car park will close on Friday, 8 December 2017.
- Redbank Road resurfacing works will occur from Saturday, 16 December until Friday, 22 December.
- Westmead Hospital Library has temporarily closed for refurbishment.
