Do you have a question about the Westmead Redevelopment?

We’re hosting pop-up booths throughout June at the entrance to University Clinics.

We’ll have information about redevelopment works, parking, transport and more.

Come and see the future of Westmead with our virtual reality goggles!

**Days and Times:**
- Tuesday, 13 June 12pm – 2pm
- Thursday, 15 June, 12pm – 2pm
- Monday, 19 June, 10am – 12pm
- Wednesday, 21 June, 12pm – 2pm
- Tuesday, 27 June, 10am – 12pm
- Thursday, 29 June, 10am – 12pm
- Monday, 3 July, 12pm – 2pm
NWOW Update: O3 Hub

We’ve got a big week of NWOW coming up as our Finance, Clinical Governance and Procurement teams start the second training module in preparation for moving into O3 Hub. The new Activity Based Working space has been named O3 Hub because of its location—Oral Health, level 3—and to align with the B2 Hub at Blacktown.

Ahead of the second training module, here’s some feedback that came out of the first training session:

- More flexibility and mobility
- Excitement about the space
- Being more collaborative
- Having stronger relationships
- Locating team members
- Hygiene
- Support by ICT infrastructure
- Ensuring that activities are done in the designated areas

Construction of the O3 Hub continues with installation of power and data cables and plumbing fittings. Also in June:

- Installation of toilet partitions and joinery
- Carpet laying
- Ceiling closures
Westmead Hospital Refurbishment Program

Westmead Hospital is currently undergoing a refurbishment program as part of the Westmead Redevelopment project. Over 30 per cent of clinical areas in Westmead Hospital will be refurbished between 2017 and 2022. Read more on our website: westmeadproject.health.nsw.gov.au/projects/refurbishments

What’s happening this week?

The Westmead Hospital refurbishment program continues and includes:

- Gastroenterology (A3a) - refurbished clinical area on level 3 of block A
- The first non-clinical new ways of working space located on level 3 of the Oral Health building
- Westmead Education and Conference Centre (WECC)

Disruptions this week: Expect general noise and deliveries around all of the work sites.

Gastroenterology (A3a) fit-out

- **Partition walls** - Erection of partition walls and installation of new walls including plastering work.
- **Service installation** - Installation of services including water, power and medical gases.
- **Communications cables** - Mid-June, communications cables will be installed in the roof of level 3 in the corridor between A3a and A3c.
- ‘Core hole drilling’ - There will be increased noise and activity by workers, in and around the area, as core hole drilling occurs between the floor of A3a and in through the ceiling of the catheter lab on level 2.
  - The drilling work will occur over weekend periods.
  - Sat 17 June - Sun 18 June and Sat 24 June - Sun 25 June, work will be undertaken between 6am - 10pm.

Extensive staff consultation has occurred in relation to this work so staff can advise colleagues and prepare patients for the disruption. Please take care and follow instructions of the construction workers.

Westmead Education and Conference Centre

Construction works for the Westmead Education and Conference Centre (WECC) level 1 expansion and upgrade project are progressing very well, with the walls and ceilings now being built. Site visits were conducted last week with university lecturers and staff educators, to see the new teaching spaces as they start to take shape.

The WECC lifts are undergoing interior works and will be unavailable to use until Wednesday, 14 June. Signage is in place to direct people to alternative routes. Also in June:

- Installation of the tiered seating completed
- Installation of air handling units
Parking, pick-up and drop-off at the front of University Clinics will be impacted as we complete works for the Westmead Redevelopment.

- As construction works around University Clinics increases, we encourage only those attending services near University Clinics to use this drop-off and pick-up point.
- Those not attending services near University Clinics are encouraged to use the Westmead Hospital main entrance and the Westmead Centre for Oral Health entrance.
- Parking for patients and visitors is available in car park P1 with access from Darcy Road, and car park P3 with access from Hawkesbury Road.
- Pedestrian access around the Westmead Precinct will be maintained.
- Signage and traffic control is in place to assist.
- If you have any questions or would like further information, please contact the Westmead Redevelopment on 1800 990 296 or email us at WSLHD-WestmeadProject@health.nsw.gov.au.
Works In Westmead Hospital

Work continues on the Westmead Education and Conference Centre (WECC).

The Gastroenterology (A3a) refurbishment works continue with ongoing disruption in and around the area including level 2, 3 and access to and from the loading dock. See the refurbishment page for more information.

Construction continues on the first non-clinical New Ways of Working space on level 3 of the Oral Health building.
Precinct Works

Areas under construction

Car parks currently available* for Westmead Hospital staff

Access to Mortuary Road is expected to be reinstated in mid June.

Construction works in this area begin mid June. Vehicle and pedestrian access will be maintained, however disruptions may occur. Traffic control is in place to assist.

From Monday, June 19, there will be increased construction works at the Redbank Road crossing. Signage and traffic control is in place to assist. Please exercise caution.

The new pedestrian route is open (as shown)

This section of the Children’s Hospital at Westmead car park now forms part of the central acute services building construction site.

Construction works impact access and parking at the entrance to University Clinics. See page 3 for more information.

*Major changes to parking will continue throughout 2017. We will provide information about future changes in the weekly Westmead Redevelopment project update.
