Sharing Health Expertise

Last week the Westmead Redevelopment invited special guest Jonas Nordquist (Director of the Medical Case Centre at Karolinska Institute in Sweden) to visit the site at Westmead and share his expertise in health planning.

Speaking at a workshop last week Jonas spoke of the potential at Westmead in continuing to develop the focus on integration and collaboration between health education and research. “The Westmead Redevelopment project is unique in it’s scale with collocation of research, education and clinical facilities,” he said. “This presents a tremendous opportunity to redefine the Westmead precinct as a globally recognised health centre of excellence.”

“Many of the lessons learned at the Karolinska Institute about creating dynamic formal and informal learning spaces can be applied to Westmead. The key focus is on facilitating and promoting active learning environments for staff and students to foster a creative learning process whether they’re learning on the job, in the classroom or when socialising with their peers.”
Help Us Make A Difference

Working with our patients and families is important to us. Their ideas and feedback help us make positive changes to our services. Do you know someone who would like to be involved in designing spaces for the new central acute services building?

Contact the Westmead Redevelopment project office on 1800 990 296 or email us at WSLHD-WestmeadProject@health.nsw.gov.au
Project Update
No 70 | Issued 27 May 2016

Important information on our works

- Please be patient, there will be disruption on the campus over the next five years.
- Check signs around your usual parking area for upcoming changes as the project progresses.
- Follow instructions from site staff.
- Walk only on marked paths.
- Report any concerns or questions you have to the Project Office – 1800 990 296

Works On Site

- Redevelopment works, but no disruption
- Infrastructure upgrades underway.
- Construction of the new helipad commencing soon
- Car parks closed for construction. Changed traffic conditions.
- Boom gates have been switched over in car park P3 for visitors to timed ticketing.

Location of the new Fleet Services office. Works occurring in this location.

Changes to pedestrian route to enable contractors to complete site works beside ICPMR building. New route will go through ICPMR building and Delivery Docks as shown.

New Fleet Services, Interpreters and WIMR bays are designated as of Monday 27 June in the Institute Road car park.

Disruptions along Institute Road continuing. Traffic control in place. Please follow the instructions of traffic wardens.

Car parking construction. Access to Oval is closed until the new car park is opened in August 2016.
