

# Arts and culture at Westmead

## The future is bright

Westmead is transforming. More than \$3 billion is being invested in Westmead precinct as the precinct partners work together to create a liveable, workable and accessible innovation district.

While construction on the Westmead Redevelopment project is powering ahead, every day thousands of dedicated hospital staff are caring for some of the sickest people in western Sydney and from across New South Wales.

Between July and November 2017 the Westmead Redevelopment Arts and Culture Strategy will be developed. We want to hear from staff, patients, families, students, visitors, residents and community members to help us shape the future of arts and culture at Westmead.

Our arts and culture program will create an environment that will aid recovery and help all members of the family feel welcome, safe and connected.

The Westmead Redevelopment team is coordinating events and sessions for you to have your say on the design of the Arts and Culture Strategy.

If you would like to be involved, please contact the Westmead Redevelopment project office on 1800 990 296 or at [WSLHD-WestmeadProject@health.nsw.gov.au](mailto:WSLHD-WestmeadProject@health.nsw.gov.au).
